

Friendly Challenge 2019

Our programmed evening for Friday March 29th is a “Friendly Competition” also sometimes referred to as a “Challenge”

So what is the challenge and what are the rules?

1. Each entrant will submit 4 pdi images. Three separate images and a Triptych combining the 3 images in an aesthetically pleasing way.
2. Each image will follow the normal club rules relating to image size (as shown on our website).
3. Your challenge is to experiment with “Colour Popping”. Each of the 3 individual images is to be colour popped, but each image must use a different colour for the relevant area of the image which is “popped”.
4. Normal rules relating to the age of your images do NOT apply, so you can use images from your older archives if you want to.
5. Your images should be named in the usual way using your competition code followed by a space or underscore followed by the following titles:
 1. Pop1
 2. Pop2
 3. Pop3
 4. Pop4 (this should be your Triptych)
6. All entries will be judged in house on the night, though we have not yet finalised the method we will use for the judging.
7. Entries should be submitted in the normal way to pdientries@morrisoncameraclub.co.uk
8. The closing date for entries is Saturday March 23rd.

We hope to see a wide range of entries and wish you all luck.

For those of you who are unsure about how to do colour popping, or create a triptych, there will be an opportunity to see demonstrations and ask questions at our Drop-in workshop this coming Friday (February 22nd), and subsequently at our drop-in workshop on March 22nd.
